DIARY NOTES

DD/S 

17 September 1962

25X1A9a

1. [REDACTED] telephoned to say that the total DD/S budget submission for Fiscal Year 1964 had to be reduced by \$703,000. I asked him to work with

25X1A9a

[REDACTED] and Gates Lloyd to accomplish the necessary.

25X1A9a

2. [REDACTED] was in to report to me the following:

a. On his recent trip to Europe, generally speaking, he believed that the military personnel are well in hand, we are getting good people, and they are being properly used and are well satisfied with their tours of duty with the Agency. He also was highly impressed with the competence of all the Support people he found in every location, including [REDACTED]

b. [REDACTED] while doing a good job, has a problem with a 16-year-old son who has quit school and was, as [REDACTED] put it, "trouble on the way to happen". (It might be worth-while to recall [REDACTED] before his tour is over; [REDACTED] could probably carry the load until a replacement arrived. I will discuss this with Jim Garrison.)

25X1A9a

25X1A6a

c. [REDACTED] said that there was one possible "foul ball", [REDACTED], on duty at [REDACTED]. [REDACTED] both have talked with him and have told him very plainly that unless his attitude changes he will be recalled and sent back to the Air Force.

25X1A9a

25X1A9a

25X1A9a

d. [REDACTED] believed that the necessity of continuing the round robin flights might be looked into once again. (I should refer this to the Comptroller.)

e. The question of whether they need [REDACTED] was raised again. (This should be a matter for the Comptroller to look into.)

25X1A6a

25X1A9a

f. [REDACTED] an Agency employee, has requested that the Agency pay him for two weeks of active duty which he is missing because of his overseas assignment. Apparently the Office of Personnel has referred this to the General Counsel. (As a matter of policy, however, I think that under no circumstances should this be approved.)

3. Jim Garrison telephoned to say that the estimate for grading and other preparations for the recreation area here at Langley was \$7,000. I asked him to find out whether we could use construction money for this work.

25X1A9a

4. [REDACTED] telephoned to say that the helicopter pilots who landed in the West parking lot a few days ago were not very happy with this space inasmuch as they had to come in over a power line. He was about to start a search for another pad. I told him not to do this inasmuch as the Director was not terribly interested in a pad in the first place. In the second place, it will be very little inconvenience to utilize the Pentagon pad.

25X1A9a

5. [REDACTED] also reported to me on his conference with the General Services Administration concerning the enforcement of parking regulations. GSA's position was that they would police the parking areas on a reimbursable basis, which is what I had anticipated. I told Gene that we were not interested in a big setup to enforce parking regulations; that all we want to do is get the regulation on the books so that we can give tickets if necessary. (I can't imagine that we would need more than one man part-time to take care of this job and that the regular guard force could absorb this workload. I also would imagine that we will not need more than one docket clerk part-time, and I would assume that our regular clerical staff could handle this load.)

25X1A9a

6. [REDACTED] reported in from [REDACTED] and was ready to go to work. He will report to the Office of Personnel tomorrow morning. He was pleased with this assignment. 25X1A6a

7. At the Executive Committee Meeting today I reported that we have received a plea to participate in the Third National Training Conference of the National Defense Executive Reserve. This was approved; however, it was suggested that we take a look at this entire program within the next few months and decide whether we want to "beef it up" and leave it as is or not to participate at all. There was considerable discussion about the National Defense Executive Reserve Program and whether it could be reduced somewhat. Apparently there is a continuing problem of completing all of the sections and at the same time maintaining those that have been completed. Ray Cline thought that this would probably never be done and that it was a very expensive proposition. It was suggested that Ray produce a paper which could be considered by USIB. I urged that, when we decide what we want to do, we advise USIB that our budget would permit us to spend only so much money on this program and that we intend to curtail it at this level unless the other agencies contributed to make up the difference. Whether or not this will be done I don't know, but I am convinced that nothing will come of the exercise unless it is done.
